

# Versa Sovereign SASE Offerings

Versa Security Service Edge (SSE), part of the VersaOne Universal SASE Platform, integrates advanced security, networking, and identity into a scalable, cloud-managed solution that provides always-on performance and end-to-end protection without compromising user experience regardless of location.

## Security

Next Generation Firewall-as-a-Service	Professional	Elite
Application visibility and control with DPI-enabled first packet auto-recognition	✓	✓
Built-in stateful firewall with Denial-of-Service (DoS) protection	✓	✓
QoS, traffic shaping, marking, classification	✓	✓
Next Generation Intrusion Prevention System (NG-IPS)	✓	✓
File Reputation Feeds and Filtering	✓	✓
Malware protection - Single network antivirus engine	✓	✓
Secure Web Gateway		
URL filtering, IP filtering, DNS filtering, GenAI dashboard	✓	✓
Captive portal	✓	✓
TLS inspection as forward proxy	✓	✓
Data Loss Prevention		
Pre-defined & custom data patterns - ePHI, PII, PCI-DSS, HIPAA, GDPR, etc.	Add-on	✓
Rich set of protocols & file types - incl. HTTPS, email, PDF, Office, images (with OCR), etc.	Add-on	✓
Exact Data Match (EDM), Indexed Document Match, Document fingerprinting	Add-on	✓
Data classification through Microsoft Information Protection (MIP) labels	Add-on	✓
Supported actions - Allow/Block, Redact, Tokenize	Add-on	✓
Endpoint DLP - Prevent copy/paste, screenshots, and USB data removal	Add-on	✓
Cloud Access Security Broker		
Cloud applications visibility & control for web, mobile apps	✓	✓
Shadow IT discovery	✓	✓
Cloud risk and policy enforcement for sanctioned & unsanctioned apps	✓	✓
SaaS tenant control restrictions	✓	✓
GenAI Firewall		
Web filtering of GenAI sites	✓	✓
Data leakage prevention to prevent sensitive data from leaking to GenAI sites / tools		✓
Advanced Threat Protection**		
Advanced Threat Protection (ATP) - Multi-AV, AI/ML, sandboxing, bare metal analysis, MITRE ATT&CK mapping - Limited profiles and file types	Add-on	✓
Advanced Threat Protection (ATP) - Multi-AV, AI/ML, sandboxing, bare metal analysis, MITRE ATT&CK mapping - Unlimited profiles and file types	Add-on	Add-on

<b>API-based Data Protection**</b>	<b>Professional</b>	<b>Elite</b>
API Data Protection Essentials - Includes retroscan, API CASB for up to three IaaS or SaaS connectors		✓
Retroscan and scheduled scans for scanning existing data at rest	Add-on	Add-on
Connectors for IaaS applications - AWS, Azure, GCP, OCI	Add-on	Add-on
Connectors for SaaS applications - Microsoft, Google, Confluence, Salesforce, ServiceNow, et al.	Add-on	Add-on
API CASB with activities control for supported SaaS/IaaS apps	Add-on	Add-on
Cloud DLP for SaaS/IaaS apps - Supported actions: Encrypt, Quarantine, Forensics, Legal hold (requires DLP)	Add-on	Add-on
Cloud ATP for SaaS/IaaS apps (requires ATP)	Add-on	Add-on
<b>IoT/IT/OT Security</b>		
Automated device discovery, fingerprinting, and identification	Add-on	✓
IoT and SCADA protocol identification and security	Add-on	✓
<b>DNS Filtering and Security</b>		
DNS forwarder, DNS proxy	✓	✓
DNS Security - Protection against malicious IPs, bots, exploits, PUAs, and DNS spoofing, hijacking, and cache poisoning attacks.	✓	✓
DNS Feeds and Advanced DNS Security - Query/reputation-based filtering and protection against DNS amplification attacks	✓	✓
DNS tunnel detection - Block or sinkhole suspicious tunnels	✓	✓
<b>User Entity Behavior Analytics (UEBA)**</b>		
AI-powered anomaly detection for risky users - multiple supported actions including MITRE ATT&CK mapping	Add-on	Add-on
Streaming logs from Versa Analytics through Versa Messaging Service (VMS)	Add-on	Add-on
<b>A La Carte Security Add-Ons**</b>		
Remote Browser Isolation	Add-on	Add-on
DLP for Email (through SMTP proxy)	Add-on	Add-on
ATP for Email (through SMTP proxy)	Add-on	Add-on

## Networking

<b>ZTNA</b>	<b>Professional</b>	<b>Elite</b>
Intelligent gateway selection - The Versa client automatically chooses the nearest and healthiest gateway based on proximity to the gateways, load (CPU, memory, etc.)	✓	✓
SD-WAN based access to gateways	✓	✓
Site-to-Site tunnels to gateways, enterprise DCs - IKEv2 IPSec or GRE	✓	✓
Encrypted and unencrypted tunnels to gateway	✓	✓
Perfect Forward Secrecy and enterprise-class encryption	✓	✓
Network obfuscation Network topology hiding	✓	✓
Geo-redundant gateways for high availability	✓	✓
Service reliance (Cold standby)	✓	✓
App whitelisting per user (10 applications) - Up to 10 applications can be controlled per tenant	✓	✓
App whitelisting for unlimited apps	✓	✓
User and app policy-based traffic management	✓	✓

## Management and Analytics

Management and Analytics	Professional	Elite
Versa Concerto - Configuration, monitoring, license management, RBAC	✓	✓
Logging - IPFIX, Syslog, Netflow, PCAPs with streaming to third-party SIEMs	✓	✓
Dashboards and security reports for each service module	✓	✓
Application, network and user visibility	✓	✓
ISP and connection performance visibility - Provide network performance analytics (includes ISP, region, etc.)	✓	✓
AI observability** - Verbo	✓	✓
Streaming to third-party analytics server	✓	✓
<b>Digital Experience Management</b>		
Digital Experience Management - Essential	✓	✓
Digital Experience Management - Professional	Add-on	Add-on

## Identity and Access

Identity and Access	Professional	Elite
Versa SASE Client - Windows (11, 10, 8, 7), macOS, iOS, Android, Linux, Chromebook; Access via IPsec VPN, TLS VPN, GRE	✓	✓
Enterprise user authentication - Integration with LDAP, Active Directory, SAML-based SSO, local authentication MFA support for Microsoft Authenticator, Google Authenticator, Duo, email	✓	✓
User, group, and application access policies with continuous security posture check	✓	✓
Zero Trust policies based on user device posture	✓	✓
Clientless application access - Application proxy (Reverse Proxy), PAC file-based access	✓	✓
Clientless access to private resources - Uses Terminal Server Agent (TSA), portal-based application access for HTTP(S)	✓	✓

## SSE Consumption and Deployment Models

<b>SSE Consumption Models</b>
Bandwidth-based
User-based

\*\* For Sovereign SASE, Versa provides shared Advanced Security Cloud with Elite package. On-premises deployments can be evaluated on case-by-case basis. The features marked with \*\* are delivered through the Versa Advanced Security Cloud.

For more information on Versa SSE and other Versa services, please reach out to your Versa account representative.
