The moment everything gets real

The screenshot displays the VERSA Analytics interface. The top navigation bar includes 'Monitor', 'Configuration', 'Workflows', 'Administration', and 'Analytics'. The left sidebar contains 'Dashboard', 'Logs', 'Reporting', and 'Admin'. The main content area is titled 'Authentication Logs > Events >' and shows a table of authentication events. The table has columns for 'Receive Time', 'Appliance', 'Auth Profile', 'Method', 'Status', 'Status Message', and 'Time Taken'. The events listed are all successful authentications for various appliances and profiles.
